CS 1013 – Fundamentals of Programming
Lab Sheet 10

NOTE: Write your answers in a word document and submit it before the deadline (copy and paste the code from CodeBlocks to the C++ programming questions).

1. Create a menu driven program in C++ which will print the area of different 2D objects according to the user's choice.
2. Create a menu-driven program in C++, which will find the user given value is an odd, even or a prime value.
